1. Documentation Overview

This section contains references to current documentation about SPOCP core. Apart from the documentation about the implementation of SPOCP there are three I-Ds describing the protocol. These drafts are currently expired but may be provided as experimental individual submissions at some later time.

- [draft-hedberg-spocp-sexp-00](#)
- [draft-hedberg-spocp-tcp-00](#)

Apart from the documentation already produced we are planning the following documents:

- Architecture
- Executive overview and summary
